

# RADIO FREE CLEAR LIGHT

## SHORT BIOGRAPHY

---

Radio Free Clear Light is an entity, a living radio, built of human components. Whether through music, poetry, graphic art, video editing or combinations of the above, RFCL seeks to integrate the audience, utilizing them as an extension of self, including them as another active element within the radio. The creative work of RFCL is process driven. Attention is devoted to the moment of creation rather than a particular outcome. A focus on form rather than content allows themes of inclusion and freedom to emerge. RFCL employs processed photography as a means of gathering urban artifacts, relics left in the wake of moments of heightened attention and will. These images chronicle the life of the pulsing breathing organism we call San Francisco.

## EXHIBITS \ PERFORMANCES \ VIDEO

---
